

Low level design(LLD)

What is Low-Level design document?

The goal of LLD or a low-level design document (LLDD) is to give the internal logical design of the actual program code for supply chain management LLD describes the class diagrams with the methods and relations between classes and program specs. It describes the modules so that the programmer can directly code the program from the document.

Architecture:

Important conditions:

1)The excel file should be at the same location as your code is in.

2)To check the directory you are currently in import os

And `df.getcwd`.
